

GIRLS IN STEM 2023 CONFERENCE

Drop off is between 10:00-10:30am

- Girlstart prefers parents drop off at the front of the school.
- Drop off is similar to school drop off procedures. You will enter the visitor parking entrance and follow the drive towards the front of the school, then follow the drive towards the exit. We appreciate your patience as there will be some traffic during drop off.
- Parents/adults are unable to attend the workshops.
- Volunteers will direct cars and will help your daughter locate the check-in tables.
- If you would like to walk your daughter in, parking is available in the presenter and volunteer lot. The entrance to this lot is at the light at Empanada Dr. Once parked, you can walk your daughter to the front of the school.

Pick up is between 3:30-4:15pm

Thank you for your patience as we safely release 300 girls.

- Pick up is at the same location as drop off.
 - We encourage everyone to enter the school's circle drive by heading north on Howell Sugar Land Dr. Doing so will allow you to make a right turn into the pick up area. Please stay in your car as Girlstart volunteers direct you forward and your daughter will be released to you.
- We encourage parents to create a legible sign with your daughter's first and last name. Place this sign face up on your dashboard to help facilitate the pick up process.
- There will be two pick up lanes; please follow the directions of Girlstart staff and volunteers to ensure a fast and safe pick up process.

No supervision will be available after 4:15pm.

- If you would rather park and pick up your daughter, you can park in the presenter and volunteer lot on the north side of the school and walk towards the front of the school and wait by the flagpole. Girlstart will release participants riding buses first then bring the remaining participants to the front of the school and flagpole. Girls will not be able to walk to the parking lot by themselves.
